

Birmingham Weekly COVID-19 Statistics

Weekly report: 28th June to 4th July 2021

Author: Dr Justin Varney (Department of Public Health)

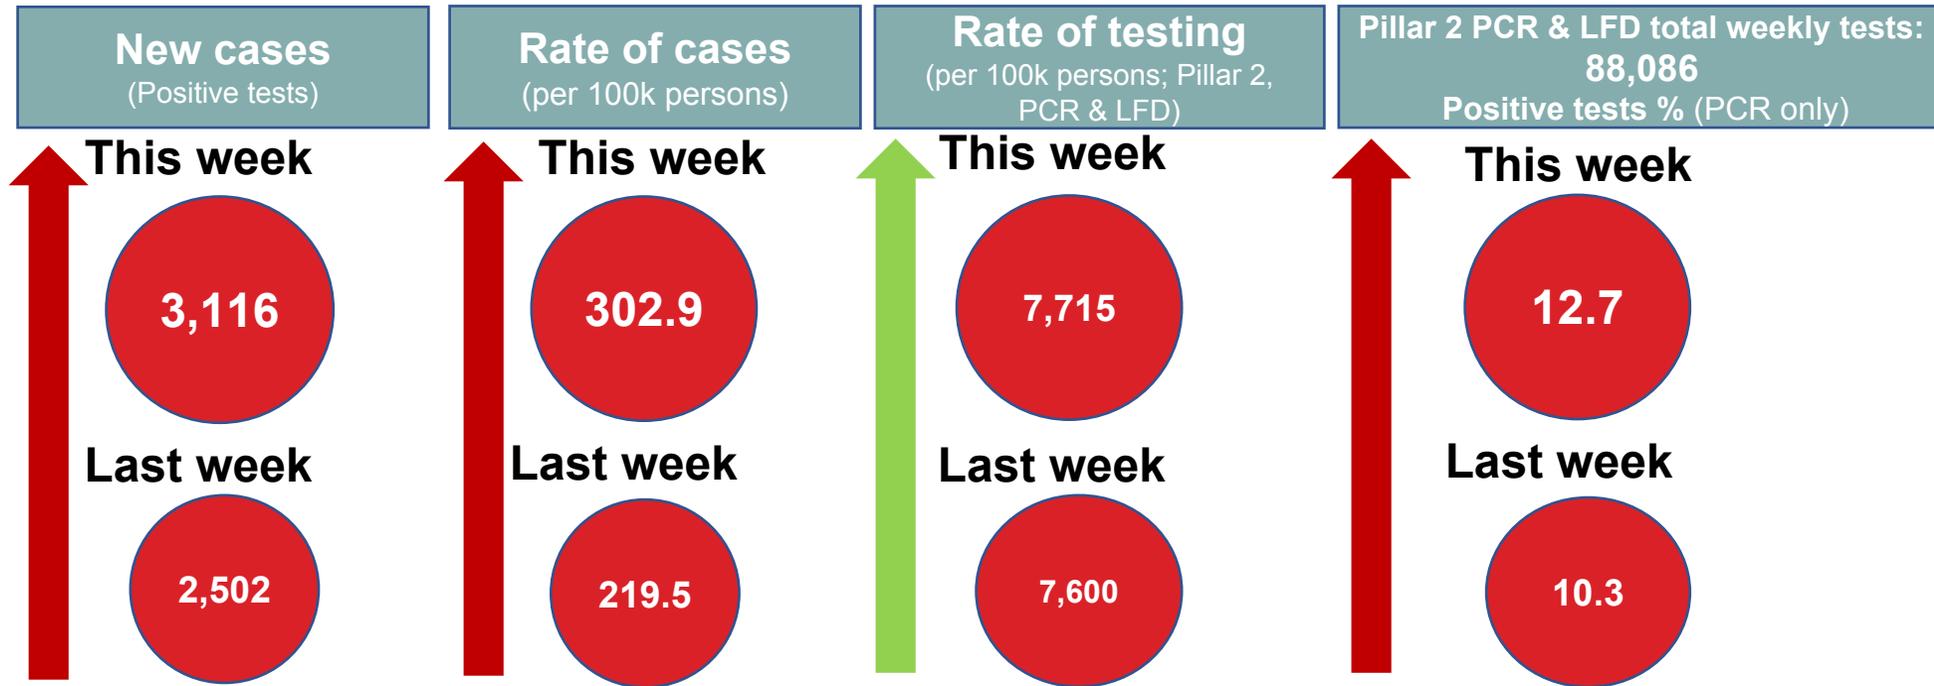

Source: SGSS, NHS Digital

New cases continue to increase this week, along with overall case rates. The % of positive tests has also increased, as have the overall rates of testing using PCR, LFD or both.

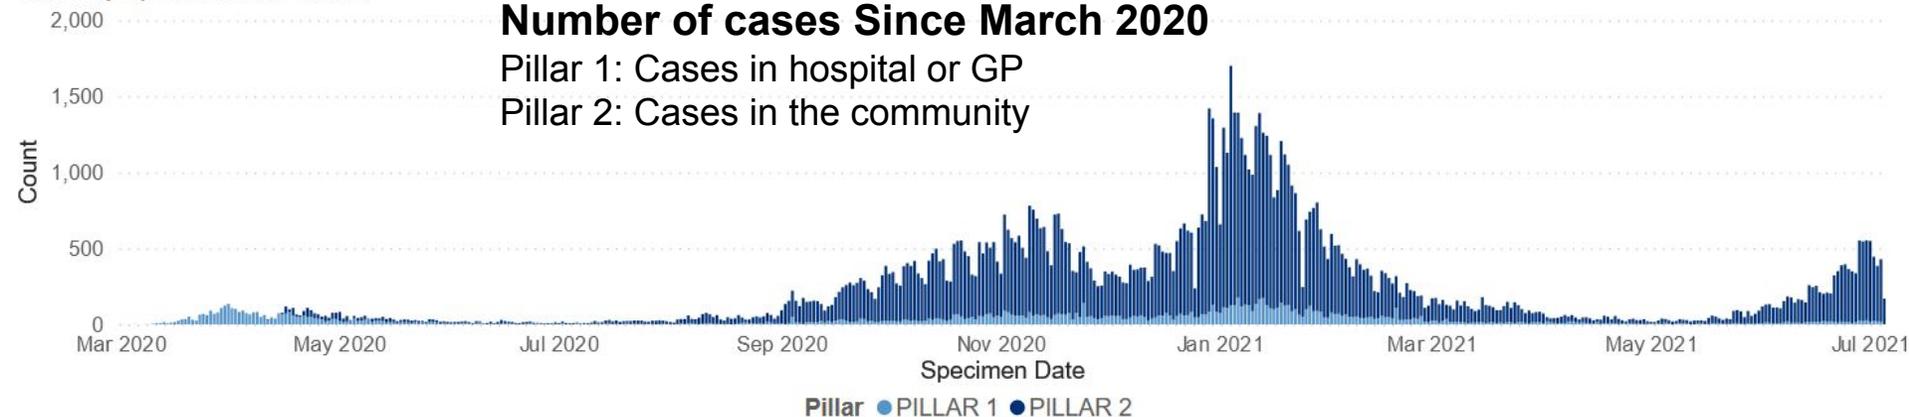

All adults who don't have symptoms should now be **testing twice a week** using the rapid lateral flow tests. Testing for asymptomatic individuals is now available [across the city](#) and you can also order test kits directly from the government for [free by post](#) or find a [local collection site](#).

Spread appears to be primarily occurring through household, social and workplace interactions. Spread often happens in the home but it isn't inevitable, and www.germdefence.org can help.

Hospital admissions range between 14 and 36 new cases a day for the week 28/06 - 04/07 across the hospitals in the city (total = 154), 60% more than last week's numbers of between 10 and 18 (total = 96). The average number of daily hospital admissions has been steadily increasing over the last month. There were 4 deaths from COVID-19 this week in Birmingham, up from 2 in the previous week.

Cases by Specimen Date & Pillar

Birmingham Weekly COVID-19 Statistics

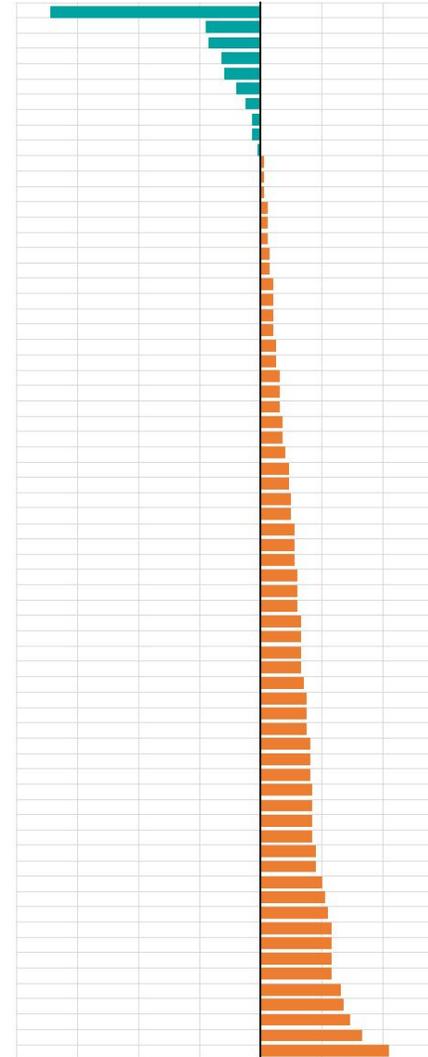

Weekly report 28th June to 4th July 2021

Across Birmingham, the number of cases increased by 614 cases compared with last week (3,116 cases this week compared to 2,502 last week). All wards in Birmingham reported new cases this week.

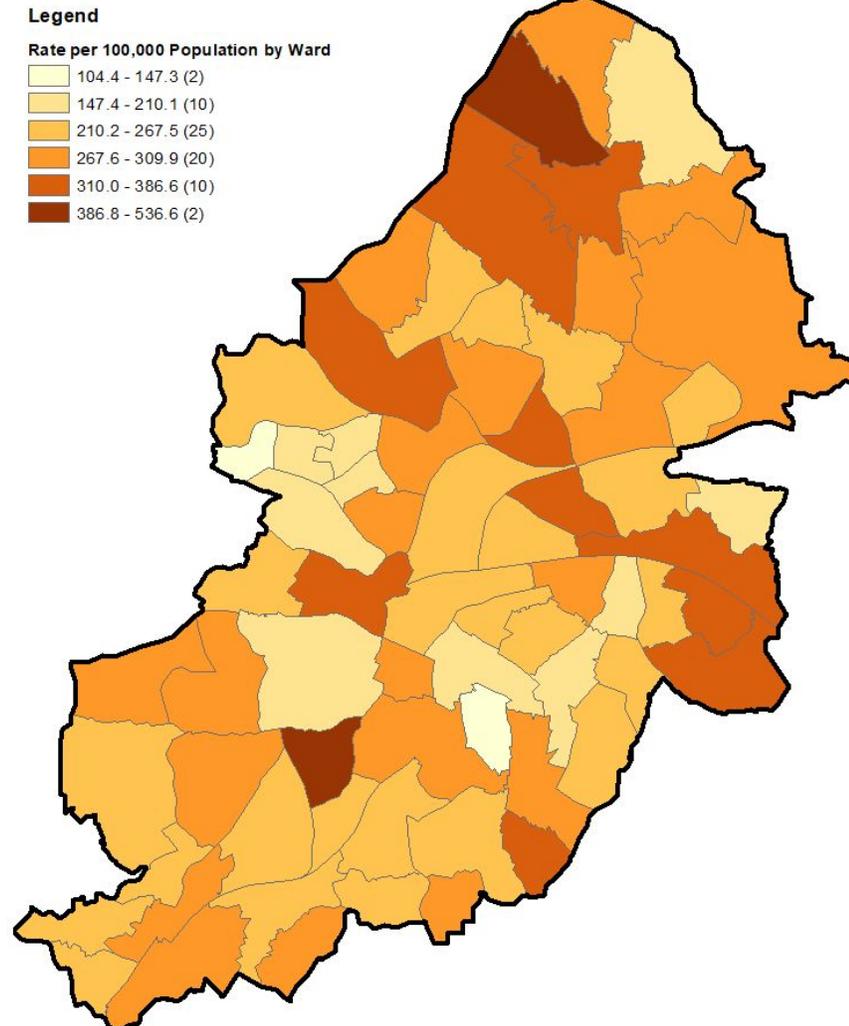

These are the wards with the highest case rates (cases per 100,000 population) this week:

- Bournbrook & Selly Park (537)
- Sutton Four Oaks (459)
- Sutton Vesey (387)
- Ladywood (377)
- Perry Barr (373)
- Hall Green South (363)
- Sheldon (362)
- Sutton Trinity (346)
- Ward End (345)
- Glebe Farm & Tile Cross (329)

Total cases rose in all age groups this week, most noticeably in the 60 – 79 age group (77%). They also increased in all ethnic groups except the White population where it fell by 2% over the past week.

Confirmed Cases by Ward 28th June to 4th July 2021
(Pillar 1 & Pillar 2 Tests)

Birmingham COVID-19 Vaccine uptake

Extracted 6th July 2021

Vaccine Uptake by Ward

(updated 06/07/2021)

- Vaccine uptake is low in some wards that have observed the highest case rates since the start of the pandemic.
- The following wards have low vaccine uptake and high case rates:
 - Newtown
 - Nechells
 - Alum Rock
 - Birchfield
 - Bordesley Green
 - Bordesley & Highgate
 - Ladywood
 - Aston
 - Sparkbrook & Balsall Heath East
 - Lozells
 - Small Heath
 - Balsall Heath West
 - Sparkhill
 - Heartlands
 - Ward End
 - Handsworth Wood
